DETAILED ACTION

Papers Received

Receipt is acknowledged of the applicant's amendment, response, and petition for extension of time, all received on 17 April 2006.

Claim Rejections - 35 USC § 103

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

The rejection of Claims 10-18 and 21-26 under 35 U.S.C. 103(a) as being unpatentable over the combined disclosures of Runge *et al.* and Woerwag *et al.* is maintained.

Response to Arguments

Applicant's arguments filed 17 April 2006 have been fully considered but they are not persuasive.

Presently, the applicant has amended the instant claims to recite the feature of direct action of a benfotiamine composition upon skin cells. However, as the prior art has taught benfotiamine compositions and the administration thereof, such claim limitations will not impart patentability unto the instant claims. Therefore, features such as direct action on skin cells are considered an inherent part of the disclosure of the prior art. As such, they do not require recognition at the time of invention. If the prior art discloses a composition that contains all the components as recited in the instant claims and administered in the same manner, then it is

Art Unit: 1618

expected that it will contain the same features as described in the instant application, since a composition cannot stand apart from its properties. See MPEP § 2112

Thus, all pending claims remain rejected.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
